GNOME CLUES

This particular gnome has never showered. He's too busy hanging by the Alpine Tower.

If finding this gnome is what you desire, go to where you can "rock and fire."

To see this gnome with you very own eyes look for the tree with the most to photosynthesize.

This gnome always participates safely. Because when he's done he turns on the safety.

On Teer Lake, go take a lap. Whether you're sitting in front or in back.
