- Raised/enclosed fire pit and firewood.

COVID-19 Considerations

Ensuring a safe outing will require a partnership among all of us. Here are some easy ways that you can help us maintain a healthy camp community:

- All participants will need to bring their 10-day Screening Form with them AND provide proof of a Negative Molecular PCR COVID-19 Test.
- Self-monitor your health during your stay at camp. Bring a thermometer with you and check your temperature regularly.
- Bring your own athletic equipment so that we can limit the amount of equipment that is being shared at camp.
- Bring your own life jackets. Again, this will help us limit the use of camp's shared equipment.
- NC DHHS Interim Guidance for Overnight Camps requires that all persons age 5 and older are required to wear face masks when they are unable to maintain a 6-foot distance from others.
- Each building at Camp has one grill that can be shared between two cabins. Each group is encouraged to bring their own grill and grill supplies if they'd prefer not to share.
