

The Comfort Project is a local program created to help children in the hospital find comfort.

Our Story and What is The Comfort Project?

Our daughter was critically ill when she was 4 years old. When she was unconscious she instinctively reached for a pink teddy bear someone had brought her and hugged it. When she was awake, she wanted her stuffed animals around her. We noticed that this simple item of comfort helped make her time in the hospital easier and her recovery time a bit happier.

We truly believe a small gift of comfort, can make a difference for a child and / or the parent who has a sick child. It is a small token to show that there are good people in this world that care for others. For 7 years now we have run this program out of our home and have collected well over 100,000 donations thanks to the efforts of people who care for others.

How to Help- *simple acts of kindness:*

- ◆ We need lots of used books! Collect children's books or DVDs – used or new
- ◆ Collect clean, **NEW** stuffed animals (with tags preferred) Please, no stuffed animals over 18 inches, and no stained animals or animals with batteries. We will take select, gently used Beanie Babies and Build a Bear animals.
- ◆ Tribe Projects: Make Comfort Kits for the parents with children in the hospital (see website)
- ◆ Tribe Projects: Make Kids Kits for kids in the hospital (see website)
- ◆ **Tribe Projects: Collect Wish list Items: UNO cards, coloring books, drawing pads, Rainbow looms and bands, girls lipgloss/ nail polish, magic markers, crayons, playing cards, board games, matchbox cars, portable DVD players.**

Hug someone you love today! Each day is truly a gift.
